Media & Advertising

Our Indoor & Outdoor media solutions provide the right exposure and the maximum impact, while choosing the right location and design.

Art guru is the kind of business with its feet in media and its head in marketing, data and analytics. We're fanatical about the art and science of engaging people and thrive on delivering imaginative thinking, unexpected clarity and tangible impact in a complex communications landscape.

At art guru we are experienced in helping businesses to develop a visual identity that really characterizes who they are and what their company is about.

We work to find out what makes your business unique and then develop a range of ways in which we can present that through different media, medium and channels. We make sure the juice is worth the squeeze.

We're idea and concept people. If you're unsure of how and where your message is best represented, we can design a custom campaign and marketing solution for you.

We at art guru provide a wide range of social media services including creation of high creative post designs, reels, videos... Our skilled animator can produce photorealistic renderings to illustrate almost any story or idea with breath-taking graphics giving a real-world feel.

Создан лаконичный, шрифтовой логотип с отсылкой на премиум сегмент. Разработан эlegantный шрифт, который дополнен разнашистыми рукописными элементами. Адаптивным разложением названия бренда от имени основателя, является точка. Она же и завершает композицию, выражая естественность, целостность и совершенство, что ассоциируется с качеством услуг и уровнем бренда. Добавлен дескриптор, который отражает «настроение» бренда и визуально дополняет композицию.

SIGNAGE

Art guru is your single source for a wide variety of high quality, custom designed signage, graphical communications and displays units. Our graphic designers can help you with ideas and bring your project to life using a full array of large format sign printing technologies including digital and screen printing. Whether you need an interior lobby sign, illuminated exterior sign, exterior dimensional letters or signs, or a interior sign, the professionals at art guru are trained in the art of sign design, the craft of sign fabrication and the complex techniques that are often needed for sign installation.

We offer customers a comprehensive service for every aspect of exhibition and display signage - from pop-up display systems with easy to assemble frames to the supply of a modular exhibition stand to cater for larger events, we can create stunning bespoke exhibition displays with fast turnaround at competitive prices.

We are conscientious of our impact on our environment, and the legacy we will leave for future generations.
